

6.5MM RJ45 STRAIN RELIEF BOOTS NOW AVAILABLE FROM STOCK

MBS has extended its range of stocked RJ45 Strain Relief Boots to include a 6.5mm entry version. With the industry moving to larger diameter cables, especially for shielded higher speed applications, the requirement for an ex-stock larger entry boot has become increasingly necessary.

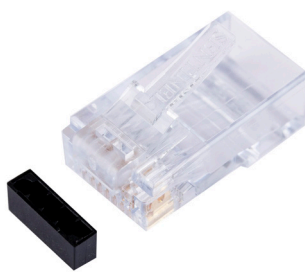

The boots are available in Light Grey, Black, Blue, Yellow, Green, Red, White, Purple and Orange. Other colours can be moulded on request. The product is suitable for the majority of manufactured RJ45 unshielded and shielded plugs. We would be delighted to assist should you need the plugs, we stock plugs from Coble, Bel-Stewart and Sentinel and can also source Hirose, TE/ AMP if required.

MBS also now stocks an 8mm Diameter Boot for Cat 6a Applications, feel free to contact our Sales Team for more information.
